Professional Summary

Full Stack Developer with 6+ years of experience in frontend and backend development, specializing in the MERN stack and PHP frameworks. Expert in building responsive UIs with React and scalable backends using Express.js and Laravel. Key achievements include leading a successful migration from legacy systems, developing a billing solution that recovered 80% of unpaid invoices, and creating an order tracking system that reduced processing time by 75%. Proficient in database optimization, API integration, and containerized deployments with Docker.

Skills

- **Language**: HTML, CSS, JavaScript, TypeScript, PHP, SQL, and Python
- **Framework**: Express.js, Next.js, Laravel, React Native, CodeIgniter, and WordPress
- **CSS framework**: Bootstrap and Tailwind
- **Testing library**: Jest and Pest

- **DBMS**: MySQL, Oracle, PostgreSQL, and MongoDB
- **Tools**: Kafka, ArgoCD, Nexus, Airflow, FileZilla, MongoDB Atlas, XAMPP, Bitbucket, GitHub, GitLab, Jira, Trello, Zoho, and Docker
- **Runtime environment**: Node.js, Apache, and Nginx

Experience

Intverse IT Solutions PVT LTD | Remote
Full Stack Developer
10/2024 - Current

- Researched emerging technologies and conducted proof of concept activities for potential adoption.
- Successfully migrated legacy IBM webMethods applications to a modern Node.js architecture, improving scalability and maintainability.
- Assisted in troubleshooting production issues, providing timely resolutions for users.

WEBaniX Solutions Pvt. Ltd. | Udaipur
Full Stack Developer
11/2020 - 09/2024

- Developed and maintained full-stack web applications using MERN stack, delivering scalable solutions.
- Created custom billing system, recovering approximately 80% of uncleared invoices to enhance cash flow.
- Designed and implemented order tracking system, reducing cycle from 30-45 days to under one week.
- Transitioned client operations from paper to paperless system, decreasing overhead by 90%.
- Managed MySQL/MongoDB databases through schema design, indexing, and query optimization for better performance.
- Integrated third-party APIs to enhance application functionality and improve user experience.
- Conducted code reviews and enforced best practices in coding standards and documentation to ensure quality.

8848 Digital LLP | Mumbai
Junior PHP Developer
07/2019 - 04/2020

- Assisted in the development and maintenance of dynamic websites and web applications using PHP and Laravel, ensuring functionality and user experience align with client requirements.
- Collaborated with senior developers to integrate MySQL databases, optimizing queries and ensuring efficient data retrieval for various applications.
- Debugged and resolved issues in existing codebases, improving application performance and reliability while gaining hands-on experience with version control systems like Git.

Education

MUMBAI UNIVERSITY | Mumbai
Information Technology
06/2019

Projects
